Group 4: Final Presentation

RAINS

About The Brand

Brand Overview

- **Outerwear lifestyle brand blending conceptual design with functionality**
- **Neo-Scandinavian aesthetic**
 - **Minimal, urban, functional, and clean**
- **Signature waterproof coated fabric**
 - **Modern reinterpretation of classic rubber raincoat**
- **Unisex collections and premium price positioning**

Brief History

- **Founded in 2012 in Denmark by Philip Lotko and Daniel Brix Hesselager**
- **Started with a focus on lightweight, practical raincoats for urban, style-conscious consumers**
- **Quickly expanded into a full lifestyle brand: outerwear, apparel, and accessories**
- **Global presence with concept stores and retail partnerships**

Main Selling Points

- **Lightweight, practical, and stylish coats at an accessible price**
- **Functional design meets simple, style-conscious aesthetic**
- **Appeals to consumers seeking value and functionality**
- **Positioned between outdoor-focused brands and luxury trend-focused labels**

Product Range

- **Outerwear: jackets, parkas, and higher-priced coats**
- **Apparel: sweatsuits, fleece pullovers, waterproof trousers**
- **Accessories: rubber-coated backpacks and duffle bags**

About The Brand

RAINS

RAINS

Market Position and Growth Strategy

- **Rains occupies a unique space between outdoor performance brands (like Patagonia, The North Face) and luxury trend-focused fashion labels**
- **Differentiation: Offers functional, stylish outerwear for urban consumers seeking value, versatility, and design - a modern spin on utilitarian design**
- **Accessible Luxury: Premium quality without the extreme luxury price tag**
- **Appeals to “normal people”: Style-conscious yet functional and approachable**
- **Current growth strategy: expansion into the US market**

RAINS

STRENGTHS

Strong Scandinavian Identity
Lifestyle diversification beyond rainwear
Premium-accessible pricing

OPPORTUNITIES

Expansion in travel + lifestyle goods
Rising market for minimalist
functional design
Potential to lead in sustainability and
circularity

WEAKNESSES

Seasonal demand volatility
Limited technical cold-weather
credibility
Insufficient supply-chain transparency

THREATS

Saturated outerwear market
Fast-fashion imitation
Climate unpredictability
Rising sustainability scrutiny

RAINS

Technological Innovations

In-Store Weather Experience

- **Staff introduces Weather Simulator and helps customer choose a jacket**
- **Customer scans QR code to connect experience to the RAINS app**
- **Tests jacket in indoor weather conditions:**
 - **Rain, wind, fog, temperature changes**
- **App sends a performance summary afterward**
- **If purchased, jacket appears as an NFT in the “Digital Closet”**
- **Physical product becomes part of a digital brand experience**

RAINS

Weather Point System

A direct digital reward loop that links a product's real-world utility to a digital loyalty incentive.

Point tiers:

- **Standard Points:** Light rain, moderate wind.
- **Higher Points:** Heavy downpours.
- **Bonus Points:** Usage past defined cold thresholds (for thermal apparel).

Rains Loyalty App

NFT Progression → Real Rewards

- **Fully-Chrome NFT Unlocks:**
 - **Early access to limited-edition collections**
 - **One complimentary exclusive product**
- **Connects real garment use with digital rewards**
 - **Strengthens physical-digital brand partnership**
- **Reward redemption completed in-app**
→ **High ease of use (TAM)**
- **Clear link between effort & reward** → **High perceived usefulness**

Gamification & Community Features

- **Weather-based missions (e.g., Storm Wear Days, Rainy-day streaks)**
- **Encourages authentic use of Rains garments**
- **Leaderboards foster friendly competition and community engagement**
- **Seasonal challenges sustain long-term participation**

RAINS

TECHNOLOGY ACCEPTANCE MODEL (TAM)

	Perceived Usefulness (PU)	Perceived Ease of Use (PEU)	Attitude Toward Use (A)	Behavioral Intention (BI) and Actual Use (AU)
In-Store Simulator Experience	Shows jacket performance in real weather → confirms usefulness and reliability.	Staff guidance + QR code makes the experience simple and seamless.	Digital summary creates confidence and positive feelings toward the product.	Drives immediate purchase intention and loyalty onboarding via NFT issuance.
Digital App Experience	Weather Points turn real use into measurable value → reinforces ongoing usefulness.	Automatic data collection + simple notifications make the app effortless.	Evolving NFT makes the experience fun, rewarding, and engaging.	Rewards, missions, and exclusives build strong intention and consistent long-term use.

Sustainability

- **Incentivizes repeated use of durable garments → extends product life**
- **Digital-first rewards reduce reliance on physical marketing materials**
- **Explicit consent for data collection; transparent, responsible data handling**
- **Aligns loyalty strategy with sustainable and ethical brand practice**

A person wearing a dark trench coat and sunglasses stands in the center of a dark, tunnel-like space. The walls of the tunnel are made of large, rectangular tiles. The floor is dark and reflective. The overall atmosphere is mysterious and cinematic. The text "THANK YOU" is overlaid in a large, white, sans-serif font across the middle of the image.

THANK YOU
